SUMMARY

Computer Science undergraduate with a strong foundation in backend development and database systems. Skilled in building scalable web applications using Django, Flask, and PostgreSQL, with hands-on experience in designing REST APIs and data-driven systems. Passionate about solving real-world problems through efficient code and continuously learning modern technologies.

EDUCATION

Bachelor of Computer Science and Engineering

LJ Institute Of Engineering and Technology

Ahmedabad, India

Nov 2024 – Present

Higher Secondary Education (Science)

New Meghdoot VidhyaVihar

Ahmedabad, India

Mar 2022 – Mar 2024

PROJECTS

LedgerX *Django, Python, PostgreSQL, REST APIs, Cloudinary, JavaScript*

- Developed a POS and credit management app to digitize traditional paper ledgers for shopkeepers.
- Built an interactive analytics dashboard with soft-delete archiving and dynamic search capabilities.
- Integrated secure UPI deep-linking for automated payments and Cloudinary for scalable image hosting.

Vestra *React, Node.js, Express.js, REST APIs, MongoDB*

- Developed a full-stack family wealth management dashboard to centralize Stocks, SIPs, and FDs.
- Engineered real-time data synchronization for live stock prices and SIP portfolio valuations.
- Implemented a Node.js cron-based notification engine for automated email alerts on financial events.

Cyber Threat Analyzer *React, Python, FastAPI, Machine Learning, Scikit-Learn*

- Developed a full-stack threat detection web application using React and an asynchronous FastAPI backend.
- Integrated trained ML classification models using text vectorization techniques to analyze and detect malicious content.
- Designed a responsive UI featuring interactive data visualizations and immersive 3D background components.

DayFlow HRMS *Flask, Python, SQLAlchemy, SQLite, JavaScript, HTML/CSS*

- Designed an HRMS platform to automate employee attendance, leave requests, and payroll.
- Implemented Role-Based Access Control (RBAC) to separate admin and employee portals securely.
- Engineered a robust relational database to manage complex user profiles, daily logs, and financial records.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frameworks: Django, REST APIs, React, Node.js, Express.js, BeautifulSoup, Flask, FastAPI

Data Visualisation: Matplotlib, Seaborn, Plotly

Database: PostgreSQL, MySQL, MongoDB

CERTIFICATIONS

- Introduction to HTML, CSS & JavaScript – **IBM**
- Inheritance and Data Structures in Java – **University of Pennsylvania**
- Introduction to Java – **LearnQuest**
